R & G followed the abrupt lines of the crinoline lady of the Sixties. It filled the need of the bustle of the Eighties. It answers the simple call of the sinuous, graceful lines of today. We've designed so many corsets - for so many women - that no trick of line, or seam or boning escapes our artists.

We make a corset for one woman in every ten in this wide land. We make a corset that fits these women, for they buy year after year, getting automatically in each new R & G the year's subtlest, slightest change of style.

Slim women and stout women, plump women and medium women, find a corset to fit in the long line of R & G's. We don't make a corset for just one set kind of figure. We make a corset to fit every kind of figure.

The secret of a corset's fit is in its lines, purely and simply. There are no trappings, no heavy harness on R & G corsets. A swinging curve in a side scain, a diagonal abdomen seam, make all the difference in the world in your corset.

In all things worth while, there is an art. The art of corset lines, carefully studied for many years, lies back of each R & G corset.

That's why there is an R & G corest to fit you and suit you exactly. When you go to the store—insist on that one. See all styles of R & G corrects till you come to the one planned by our designers to fit your particular figure.
